Reliable Monitoring of Steam Sterilization Parameters

EN ISO 11140 COMPLIANT | ISO 13485 CERTIFIED | LEAD FREE HEAVY METAL FREE | SINGLE USE DISPOSABLE | 48-MONTHS SHELF LIFE

INDICATOR RESPONSE

Article Number
KRLT-104

Packaging:
250 indicator Strips/box

Shelf Life
48-months

Storage
15°C to 30°C

PRODUCT OVERVIEW

The **EEP** Type 2 Steam Process Indicator Strip is designed for routine exposure monitoring of steam sterilization processes. The indicator provides a clear visual confirmation that the package has been exposed to the steam sterilization cycle.
The indicator bars change color from yellow to dark brown/black after exposure to steam, providing rapid and reliable identification of processed packs.
Manufactured in accordance with the applicable requirements of EN ISO 11140-1 for Type 1 process indicators.

KEY FEATURES

- Type 2 Steam Process Indicator Strip
- Clear Visual Confirmation of Steam Exposure
- Distinct Color Change (Yellow to Brown/Black)
- Disposable Single-Use Indicator
- Lot Number and Expiration Date Printed on Each Strip
- Load Free and Heavy Metal Free
- Cost-Effective Routine Monitoring
- Conforms to EN ISO 11140-1

Color Change	Yellow to Brown/Black
Material	Medical Grade Paper
Dimension (mm)	6 × 75
Packaging	250 indicator Strips/box
Storage Temperature	15°C to 30°C
Country of Origin	Made in Iran
Standard Compliance	EN ISO 11140-1

Single Use Only

HOW TO USE

INTERPRETATION GUIDE

PASS

Satisfactory Performance

A complete color change from yellow to dark brown/black indicates that the indicator has been exposed to the steam sterilization process

FAIL

Unsatisfactory Performance

Incomplete or no color change indicates that the package may not have been exposed to the sterilization process.
